

**PARAMUS BOARD OF EDUCATION  
Buildings & Ground Department  
145 Spring Valley Road, Paramus, NJ 07652**

**ANNUAL INTEGRATED PEST MANAGEMENT NOTICE  
SCHOOL YEAR 2024-2025**

Dear Parent, Guardian & Staff Members:

This notice is being distributed to comply with the New Jersey Integrated Pest Management Act. The Paramus Public School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with the law. IPM is a holistic, preventive approach to managing pests that is explained further in the schools IPM Policy included with this notice.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for the Paramus School District is Nick Naturile, Director of Buildings and Grounds, 145 Spring Valley Road, Paramus, NJ 07652, (201) 261-7800 ext. 3017.

The IPM Coordinator maintains the pesticide label and the Safety Data Sheet (SDS) (when one is available), of each pesticide product that may be used on school property. The label and the SDS are available for review by a parent, guardian, staff member or student attending the school. Also, the IPM Coordinator is available to the parents, guardians, and the staff members for information and to discuss the comments about IPM activities and pesticide use at the school.

As part of the School Pest Management Plan, the Paramus Public School District may use the pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection DEP register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children should avoid unnecessary pesticide exposure.

# **Annual Integrated Pest Management Notice**

## **For School Year 2024 – 2025**

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. **Paramus Public Schools** has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school's IPM Policy included with this notice.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for **East Brook Middle School** is:

Name of IPM Coordinator: Nick Naturile

Business Phone number: 201-261-7800 ex. 3017

Business Address: 145 Spring Valley Rd. Paramus NJ, 07652

The IPM Coordinator maintains the pesticide product label, and the Safety Data Sheets (SDS) (when one is available), of each pesticide product that may be used on school property. The label and the SDS are available for review by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan **East Brook Middle School** may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

### **The following items must be included with this annual notice:**

- **A copy of the school or school district's IPM policy.**
- **The date, time and place of any meeting if one is to be held for the purpose of adopting or modifying the school integrated pest management policy or plan.**
- **A list of pesticides that are in use or that have been used in the past 12 months on school property.**
